What is this product?

Type

DoubleLine Funds (Luxembourg) is a Société d'Investissement à Capital Variable (SICAV), société anonyme, composed of multiple sub-funds authorised under Part 1 of the 2010 law, qualifying as a UCITS and organized under the laws of the Grand Duchy of Luxembourg.

Term

The Sub-Fund does not have maturity date.
The PRIIP Manufacturer may not terminate the Sub-Fund unilaterally.
Sub-Fund can not be automatically terminated.

Objectives

To seek to maximize current income and total return. Under normal circumstances, the Sub-Fund intends to invest at least 80% of its assets in fixed income instruments (which are loans that pay a fixed or variable rate of interest) globally. These fixed income instruments can be principally invested in (but are not limited to) securities issued or guaranteed by the United States Government, its agencies, instrumentalities or sponsored corporations and corporate obligations; mortgage-backed securities of any kind, including commercial and residential mortgage-backed securities; asset-backed securities; and collateralized loan obligations of US issuers. The Sub-Fund may invest up to 90% in different types of asset-backed securities (ABS) and mortgage backed securities (MBS). The Sub-Fund may invest up to 33 1/3% in below investment grade or unrated securities, and credit default swaps of companies in the high yield universe; up to 20% in below investment grade or unrated (but determined by the Investment Manager to be of comparable quality) mortgage-backed or other asset-backed securities; up to 5% in distressed or defaulted corporate securities; and up to 10% in contingent convertible securities. The Sub-Fund may hold up to 20% in ancillary liquid assets. The Sub-Fund may invest up to 12% of its net assets in the Russian Federation or in the People's Republic of China via Bond Connect. Given the political and market environment, no investments in Russia are contemplated as at the date of this document. If and as soon as conditions for investment in Russia return to acceptable (and if considered in the interest of Shareholders), the Investment Manager may seek exposure to Russia and Russian issuers.
The Sub-Fund aims, without guarantee, to maintain an effective duration (a measure of interest rate sensitivity) ranging from 2 to 10 years.
The Sub-Fund may use derivatives for hedging (reducing risk) and to seek investment gains.
The Sub-Fund is actively managed and uses the Bloomberg Global Aggregate Bond Index (the "Benchmark") for performance comparison purposes only. For each Share Class, the Benchmark may be denominated or hedged into the relevant Share Class currency. The Investment Manager is not bound by the components or weighting of the Benchmark when selecting investments.
The Sub-Fund promotes environmental and/or social characteristics, as per Article 8 of the EU Sustainable Finance Disclosure Regulation (SFDR). Further information on the Investment Managers' ESG strategy and the Sub-Fund environmental and social characteristics is available in the fund's prospectus.
These shares are accumulation shares (meaning any income received is retained in the value of the shares).
You can usually buy or sell fund shares every day that is a banking day in Luxembourg and The New York Stock Exchange (NYSE).

Intended Retail Investor

The Sub-Fund is suitable for well-informed investors that seek current income through debt securities and with a medium to long term investment horizon of at least 3 years. The Sub-Fund has specific and generic risks with a risk rating as per the SRI number, all detailed in the prospectus.

Depository The Bank of New York Mellon S.A./N.V., Luxembourg Branch.

What are the risks and what could I get in return?

Risk Indicator

Lower Risk	1	2	3	4	5	6	7	Higher Risk

The risk indicator assumes that you keep the product for 3 years. The actual risk can vary significantly if you cash in at an early stage and you may get back less.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 3 out of 7, which is a medium-low risk class.

This rates the potential losses from future performance at a medium-low level, and poor market conditions are unlikely to impact our capacity to pay you.

You may not be able to sell your product easily or you may have to sell at a price that significantly impacts on how much you get back.

If the product currency differs from your investment currency, the following applies: Be aware of currency risk. You will receive payments in a different currency, so the final return you will get depends on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.

Other risks not covered by the risk indicator include Counterparty risk, Default risk, Derivatives risk, Liquidity risk, Management risk, ABS/MBS risk, Below Investment Grade risk, Emerging Markets risk, ESG Investment risk, and China Onshore Bond risk. For further information on risks, please refer to the fund's prospectus available at www.doublelineucits.com or on request from the management company.

This product does not include any protection from future market performance so you could lose some or all of your investment.

If DoubleLine Funds (Luxembourg) is not able to pay you what is owed, you could lose your entire investment.

Performance Scenarios

The figures shown include all the costs of the product itself, and includes the costs of your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product and a suitable benchmark over the last 10 years. Markets could develop very differently in the future.

The stress scenario shows what you might get back in extreme market circumstances.

The unfavourable scenario occurred for an investment in the product/its proxy between October 2020 and October 2023.
The moderate scenario occurred for an investment in the proxy between September 2016 and September 2019.
The favourable scenario occurred for an investment in the product/its proxy between October 2022 and October 2025.

Recommended holding period: 3 years.

Example Investment: USD 10,000.

What happens if One Fund Management S.A. is unable to pay out?

The Management Company is responsible for administration and management of the Sub-Fund, and does not typically hold assets of the Sub-Fund (assets that can be held by a depositary are, in line with applicable regulations, held with a depositary in its custody network). The Management Company, as the manufacturer of this product has no obligation to pay out since the product design does not contemplate any such payment being made. However, investors may suffer loss if the Sub-Fund or the depositary is unable to pay out. There is no compensation or guarantee scheme in place which may offset, all or any, of this loss.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest and how long you hold the product. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.
We have assumed:
- In the first year, you would get back the amount that you invested (0 % annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.
- USD 10,000 is invested.

	If you exit after 1 year	If you exit after 3 years
Total costs	55 USD	174 USD
Annual cost impact (*)	0.6%	0.6% each year

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 2.1% before costs and 1.6% after costs.

We may share part of the costs with the person selling you the product to cover the services they provide to you.
